

# b-there tool

ONLINE PATIENT AND SUPPORTER CONNECTION TOOL

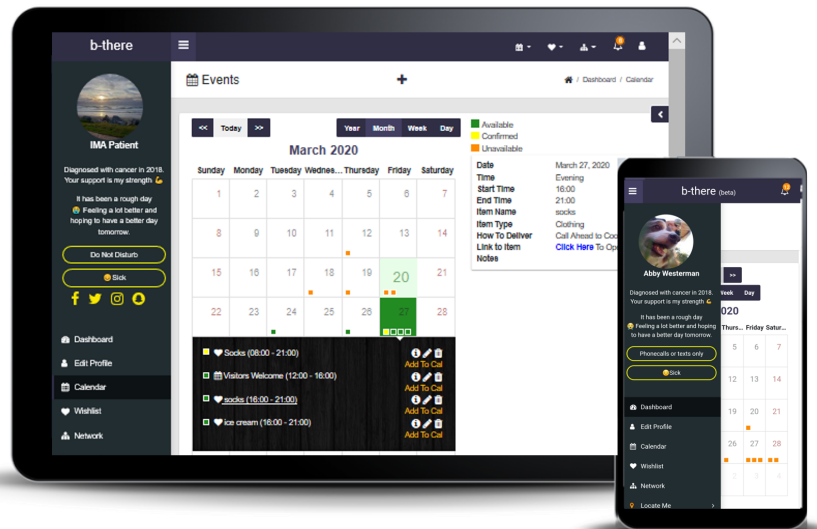

Connects patients and supporters from the day of diagnosis and keeps them connected through treatment and beyond.

Empowers supporters to be there and responsive to patient's physical and emotional needs.

Provides the patient a simple, low-stress way to control visits, convey status, and request needed items.

**EXPERIENCE B-THERE**  
[bit.ly/btheretool](http://bit.ly/btheretool)

## PATIENT STATUS

Informs supporters how the patient is doing, the patient's preferred method of contact, and if they are welcoming visitors.

## CALENDAR

Lets supporters know when the patient is available, what activities are of interest, and how they can help.

## WISH LIST

Allows supporters to see what the patient needs, when they need it, and how they would like it to be delivered.
